SAP Practice

SAP Service Focus

ObjectWin's result-driven SAP capabilities, business knowledge, technical insight and implementation experience addresses the most pressing business challenges of today. Our SAP practice is equipped with proven tools, methodologies, templates and accelerators. It is supported by a SAP Global Delivery Center [SAP-GDeC[®]] and WinShore Methodology to bring to you robust implementations, faster rollouts, risk-free upgrades, dependable production support and best quality development. ObjectWin's proprietary tools and intellectual capital are applied to every engagement to assure a successful SAP implementation.

Our Strength

- Our strong team of SAP Professionals consisting of industry experts, solutions architects and functional and technical consultants with several years of industry experience
- Leverage an enterprise value creation model, which together with our expertise in aligning people, processes and technology, supports the SAP business case
- Identify the SAP solutions that address the particular requirements of the enterprise, and then tailor those solutions to best fit your needs
- Deep commitment to accelerate your implementations by using time-tested techniques and industry-tested ObjectWin methodology for SAP

Strategic Support Services

ObjectWin's WinShore Delivery Model helps lower your SAP Total Cost of Ownership by leveraging a global network of resources. ObjectWin's global practice is dedicated to support SAP systems that combine a wealth of world-class, full service outsourcing, consulting and systems integration teams. Put ObjectWin's business experience, renowned collaborative culture and extensive leadership capabilities to work for your company.
